### Optional Benchmarking Services

The following Tables 3-12, contain optional Gartner Benchmarking Services for GSA’s consideration. The Benchmarking Services pricing reflects Gartner Consulting solutions to typical Benchmarking focus areas described per each Table herein. The pricing for each Benchmarking engagement was established using Gartner’s GSA Schedule labor categories and rates (see Table #13) in order to develop the firm fixed-price. Option Year pricing is illustrative. Actual Option Year pricing will be developed using the Labor rate prices in the “then-current” GSA Contract in effect when an Option is exercised.

The deliverables, schedule and pricing related to the Optional Gartner Benchmarking Services engagements in this proposal are based on the following assumptions:

1. GSA will designate an engagement manager to act as the primary point of contact for the benchmarking engagement. The GSA engagement manager will be expected to work

closely with the Gartner employees as needed and will: (a) approve engagement priorities, detailed task plans and schedules; (b) facilitate the scheduling of Gartner interviews with appropriate client personnel; (c) notify Gartner in writing of any engagement or performance issues; and (d) assist in resolving engagement issues that may arise.

2. Available GSA Resources—The GSA benchmarking engagement team will make the appropriate resources available during the engagement kick-off meeting. It is also expected that GSA will assign engagement liaisons to enable effective interaction and data review during the course of the benchmarking engagement (e.g., engagement sponsor, engagement manager, IT area subject matter experts, etc.).
3. Availability of Information—It is expected that the relevant documentation and information called for by the particular benchmarking engagement is readily available for use by the engagement team. In cases where data is not available, Gartner Consulting will work with GSA to make reasonable assumptions in order to facilitate completion of the engagement in a timely manner. Gartner Consulting will require that the engagement liaison provide this data to Gartner Consulting and help coordinate the interview schedules with engagement participants to validate any information collected.
4. Gartner work will be performed at Gartner locations or on-site at GSA facilities as required.
5. GSA will review and approve documents within 10 business days. If no formal approval or rejection is received within that time, the deliverable is considered to be accepted by GSA.
6. All deliverables will be developed using Microsoft products (for example, Project, Excel (2007 or earlier), Word and PowerPoint) and delivered in Adobe Portable Document Format (PDF).
7. Any requests for either additional information or additional level of detail and/or depth of assessment and analysis beyond what is specified in the benchmarking services descriptions (presented in the accompanying Technical Proposal) that are made by GSA will be considered changes in scope for the benchmarking service engagement, and will be handled in writing and must set forth with specificity the requested changes. As soon as practicable, Gartner shall advise GSA of the cost and schedule implications of the requested changes and any other necessary details to allow both parties to decide whether to proceed with the requested changes. As soon as practicable, Gartner shall advise GSA of the cost and schedule implications of the requested changes and any other necessary details to allow both parties to decide whether to proceed with the requested changes. The parties shall agree in writing upon any requested changes prior to Gartner commencing work.

## Information for Ordering Activities

[Applicable to all Special Item Numbers]

### Special Notice to Agencies: Small Business Participation

SBA strongly supports the participation of small business concerns in the Federal Acquisition Service Schedules Program. To enhance Small Business Participation SBA policy allows agencies to include in their procurement base and goals, the dollar value of orders expected to be placed against the Federal Supply Schedules, and to report accomplishments against these goals.

For orders exceeding the micropurchase threshold, Federal Acquisition Regulation (FAR) 8.404 requires agencies to consider the catalogs/pricelists of at least three schedule contractors or consider reasonably available information by using the GSA Advantage!™ online shopping service ([www.gsaadvantage.gov](http://www.gsaadvantage.gov)). The catalogs/pricelists, GSA Advantage!™ and the Federal Acquisition Service Home Page ([www.gsa.gov/fas](http://www.gsa.gov/fas)) contain information on a broad array of products and services offered by small business concerns.

This information should be used as a tool to assist ordering activities in meeting or exceeding established small business goals. It should also be used as a tool to assist in including small, small disadvantaged, and women-owned small businesses among those considered when selecting pricelists for a best value determination.

For orders exceeding the micropurchase threshold, customers are to give preference to small business concerns when two or more items at the same delivered price will satisfy their requirement.

The requirements of the Davis-Bacon Act do not apply if the construction work is incidental to the furnishing of supplies, equipment, or

services. For example, the requirements do not apply to simple installation or alteration of a public building or public work that is incidental to furnishing supplies or equipment under a supply contract. However, if the construction, alteration or repair is segregable and exceeds \$2,000, then the requirements of the Davis-Bacon Act apply.

The ordering activity issuing the task order against this contract will be responsible for proper administration and enforcement of the Federal labor standards covered by the Davis-Bacon Act. The proper Davis-Bacon wage determination will be issued by the ordering activity at the time a request for quotations is made for applicable construction classified installation, deinstallation, and reinstallation services under SIN 132-8.

## **Basic Guidelines for Using “Contractor Team Arrangements”**

Federal Supply Schedule Contractors may use “Contractor Team Arrangements” (see FAR 9.6) to provide solutions when responding to an ordering activity requirements.

These Team Arrangements can be included under a Blanket Purchase Agreement (BPA). BPAs are permitted under all Federal Supply Schedule contracts.

Orders under a Team Arrangement are subject to terms and conditions of the Federal Supply Schedule Contract.

Participation in a Team Arrangement is limited to Federal Supply Schedule Contractors.

Customers should refer to FAR 9.6 for specific details on Team Arrangements.

Here is a general outline on how it works:

- The customer identifies their requirements.
- Federal Supply Schedule Contractors may individually meet the customers’ needs, or
- Federal Supply Schedule Contractors may individually submit a Schedules “Team Solution” to meet the customer’s requirement.
- Customers make a best value selection.

Client agrees to review and comply with the Usage Guidelines for Gartner Services ("Guidelines"), which are accessible to all Licensed Users via the "Policies" section of www.gartner.com. Among other things, these Guidelines describe how Client may substitute Licensed Users, excerpt from and/or share Gartner research documents within the Client organization, and quote or excerpt from the Services externally.

Client may not redistribute copies of individual research documents, by electronic means or otherwise, to non-Users without Gartner's prior written permission. Users may not reproduce or distribute the Services externally without Gartner's prior written permission, except for external distribution, in their entirety only, of reprints of individual documents purchased by Client. Client may excerpt from the Services for external use only if Client obtains the prior written approval of Gartner Vendor Relations, at vendor.relations@gartner.com. ### 3.2 Consulting Services

Gartner's Consulting Deliverables are a blend of pre-existing, copyrighted and/or proprietary Gartner intellectual property (IP) that has been developed at private expense and may contain analysis and recommendations unique to individual Clients. Therefore, Gartner cannot list documents or identify pre-existing IP in advance of the completion of individual Deliverables. Gartner Deliverables are therefore "Limited Rights Data" as that term is defined in FAR 52.227-14 — Rights in Data General, and FAR 52.227-14 — Rights in Data General alternate II this clause/definition shall apply to all Gartner Deliverables.

If Client provides Gartner with materials owned or controlled by Client or with use of, or access to, such materials, Client grants to Gartner all rights and licenses that are necessary for Gartner to fulfill its obligations under each Statement of Work.

2. Use of Deliverables. Subject to payment in full of the applicable fees, Gartner grants to Client for internal purposes only a worldwide, royalty-free, perpetual license to use, reproduce, display, distribute copies of, and prepare derivative works of the Deliverables. Unless the Deliverable is a Request for Proposal (RFP) or similar document intended to be distributed by Client, Client shall not make the Deliverables available, in whole or in part, to anyone outside of Client, or quote excerpts from the Deliverables to the public, without the prior written consent of Gartner. Notwithstanding the foregoing, Client may share the Deliverables with (i) its outside auditors and/or accountants, (ii) third parties who have signed appropriate confidentiality agreements with Client who are engaged by Client to review or implement suggestions or to further research the issues contained in the Deliverables, and (iii) governmental or regulatory bodies as required by law.

3. Confidentiality. (a) The parties agree to keep confidential and not to use or disclose to any third parties any non-public business information of the other party learned or disclosed in connection with each Statement of Work, including the Gartner Materials. The obligation of the parties with respect to the Confidential Information shall terminate with respect to any particular portion of the Confidential Information if and when: (i) it is in the public domain at the time of its communication; (ii) it is developed independently by the receiving party without use of any confidential information; (iii) it enters the public domain through no fault of the receiving party subsequent to the time of the disclosing party's communication to the receiving party; (iv) it is in the receiving party's possession free of any obligation of confidence at the time of the disclosing party's communication; (v) it is communicated by the disclosing party to a third party free of any obligation of confidence; or (vi) the receiving party has the disclosing party's written permission.

(b) Each party shall provide notice to the other of any demand made upon it under lawful process to disclose or provide any of the other party's confidential information. The receiving party agrees to cooperate with the disclosing party, at the disclosing party's expense, if the disclosing party elects to seek reasonable protective arrangements or oppose such disclosure. Any confidential information disclosed pursuant to such lawful process shall continue to be confidential information.

4. Warranties. (a) Client warrants that Gartner's use of any materials furnished by Client in connection with a Statement of Work does not infringe any copyright, trademark, trade secret or other right of any third party.

(b) Gartner warrants that the Deliverables, in the form provided to Client, do not infringe any copyright, trademark, trade secret or other right of any third party.

(c) ALL SERVICES ARE PROVIDED ON AN “AS IS” BASIS. GARTNER DISCLAIMS ALL WARRANTIES, EXPRESS OR IMPLIED, STATUTORY OR OTHERWISE, INCLUDING, WITHOUT LIMITATION, ANY IMPLIED WARRANTIES OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE. THE INFORMATION IN THE DELIVERABLES HAS BEEN OBTAINED FROM SOURCES THAT GARTNER BELIEVES TO BE RELIABLE. ALL DELIVERABLES SPEAK AS OF THE DATE OF DELIVERY TO THE CLIENT. GARTNER HAS NO OBLIGATION TO ADVISE CLIENT OF ANY CHANGE IN THE INFORMATION OR VIEWS CONTAINED IN THE DELIVERABLES.

5. Limitation of Liability. (a) Neither party shall be liable for any consequential, indirect, special or incidental damages, such as damages for lost profits, business failure or loss arising out of use of the Deliverables or the Services, whether or not advised of the possibility of such damages. Except for liability for personal injury or death or for damage to property caused by the negligence or willful misconduct of Gartner or its employees, Gartner’s total liability arising out of this Agreement and the provision of the Services shall be limited to the fee paid by Client.

operating system and is available to the product developer.		
(c) A well-defined on-screen indication of the current focus shall be provided that moves among interactive interface elements as the input focus changes. The focus shall be programmatically exposed so that Assistive Technology can track focus and focus changes.		
(d) Sufficient information about a user interface element including the identity, operation and state of the element shall be available to Assistive Technology. When an image represents a program element, the information conveyed by the image must also be available in text.		
(e) When bitmap images are used to identify controls, status indicators, or other programmatic elements, the meaning assigned to those images shall be consistent throughout an application's performance.		
(f) Textual information shall be provided through operating system functions for displaying text. The minimum information that shall be made available is text content, text input caret location, and text attributes.		
(g) Applications shall not override user selected contrast and color selections and other individual display attributes.		
(h) When animation is displayed, the information shall be displayable in at least one non-animated presentation mode at the option of the user.		
(i) Color coding shall not be used as the only means of conveying information, indicating an action, prompting a response, or distinguishing a visual element.		

(j) When a product permits a user to adjust color and contrast settings, a variety of color selections capable of producing a range of contrast levels shall be provided.		
(k) Software shall not use flashing or blinking text, objects, or other elements having a flash or blink frequency greater than 2 Hz and lower than 55 Hz.		
(l) When electronic forms are used, the form shall allow people using Assistive Technology to access the information, field elements, and functionality required for completion and submission of the form, including all directions and cues.

only page shall be updated whenever the primary page changes.		
(l) When pages utilize scripting languages to display content, or to create interface elements, the information provided by the script shall be identified with functional text that can be read by Assistive Technology.		
(m) When a web page requires that an applet, plug-in or other application be present on the client system to interpret page content, the page must provide a link to a plug-in or applet that complies with §1194.21(a) through (l).		
(n) When electronic forms are designed to be completed on-line, the form shall allow people using Assistive Technology to access the information, field elements, and functionality required for completion and submission of the form, including all directions and cues.		
(o) A method shall be provided that permits users to skip repetitive navigation links.		
(p) When a timed response is required, the user shall be alerted and given sufficient time to indicate more time is required.
